SUMMARY

Currently pursuing a B.Tech in Information Technology at Koneru Lakshmaiah University, with a keen interest in problem-solving, data analysis, and developing practical, innovative solutions.

EDUCATION

Koneru Lakshmaiah University (KL University), Andhra Pradesh — Andhra Pradesh, India
Bachelor of Engineering in Information Technology — *July 2024 – Present*
CGPA: 8.93

Sasi Junior College, Andhra Pradesh — Andhra Pradesh, India
Board of Intermediate Education Andhra Pradesh, PCM — *June 2022 – June 2024*
Percentage: 96.9

TECHNICAL SKILLS

Languages:
Java, Python, C

Web Development: JavaScript,
HTML, CSS

Databases:
MongoDB, Firebase Firestore

Skills:
OOP, Machine Learning, Data Structures

PROJECTS

AAYUH – Smart Healthcare & Medical Management System:

- Developed a responsive healthcare web application for medicine search, symptom checking, and medical history tracking.
- Built a full-stack healthcare platform with authentication and secure medical record storage.
- Built an API-integrated medicine search feature using JavaScript (Fetch/AJAX) to retrieve real-time drug data and dynamically update the UI.

Handloom E-Commerce Website:

- Built a responsive e-commerce website to promote and sell handloom products.
- Designed user-friendly shopping interface with add-to-cart system.

Life Tag – Emergency Identification Web Platform:

- Developed a web-based emergency response system that enables accident victims to be identified and get their emergency contacts by searching their vehicle number or scanning a QR code.
- implemented emergency contact retrieval feature to instantly display registered contacts during critical situations.

CERTIFICATIONS

- NVIDIA: AI Infrastructure and Operations Fundamentals
- KodeKloud: Git for beginners with Hands-on Lab.
- Scrimba: Learn React
- University of Colorado boulder :Dynamic programming ,Greedy algorithms

ACHIEVEMENTS

- Participated in SIH 2025, nominated at inter-college level.
- Participated in mandal kabaddi tournaments at school-level.
